

FRED HOLT HEADS COUNTY TEACHERS

Edgerton Schools Superintendent Is Honored at Annual Convention Here.

Fred J. Holt, superintendent of Edgerton schools, was elected president of the Rock County Teachers' association at the annual meeting held Saturday at the high school here and attended by more than 250 teachers and principals of the county.

Miss Ida Jureth, Evansville, rural teacher, was elected vice president to succeed Miss Helen Hopkins, Deloit. Two officers were re-elected, Mrs. Sadie Clapp, Deloit, secretary and Mrs. Bill Jacobson, treasurer. Ralph A. Buell, superintendent of Milton Junction schools, Miss Margaret Younghouse and F. J. Lowry, principal of the training school made up the executive committee.

Kickboffer Given Talk. Contests between individuals, classes and groups and lastly nations, struggling for a place in the sun, constituted the substance of the address "A Struggle Ahead," given by Prof. W. H. Kickboffer, extension department, University of Wisconsin.

Capital vs. Labor. Contention of groups and classes for capital and labor was the second subject discussed in the struggle ahead. This struggle, the speaker considers the greatest conflict of this time and time to come, is a struggle for control between capital and labor, according to Prof. Kickboffer.

Reinhold Marquardt played a cello selection, accompanied on the piano by Miss Florence Snyder. Prof. E. B. Gordon, university extension department, conducted a community singing exercise.

Walworth Farm Bureau Has Big Progress for '21

With a definite program of work the Walworth County Farm Bureau is tackling big farm problems for this year. The bureau got away to a flying start and bids fair to achieve successful results.

Walworth county being chiefly concerned in the dairy industry, the bureau is vitally interested in cattle, dairymen, cows, shipping associations, testing associations, and milk markets.

Intention is to work in close cooperation with Jefferson and Rock counties, whose farm problems run along similar lines. Plans are being made for a farm bureau picnic in Walworth county on July 4. The outline work for the Walworth bureau for the coming year is as follows:

Legislative work—Fight modified milk work to secure favorable state legislation; protect members from unfair legislation; co-operate with possible means taken to make them social segregates. He advocated that a teacher be given the chance of being just as independent in choosing a school time as others. There is a certain etiquette in society which forbids the hostess or any of the guests to question a judge or lawyer on his profession. Mr. Meek said, and yet almost the first remark addressed to the teacher is, "How's school?" She or he is constantly being made to try the trade in every gathering. In closing, Mr. Meek made a plea that teachers be respected in society as other professional laborers.

MOVIES POPULAR AMONG CHILDREN. Owing to the large attendance, it has been found necessary to have a moving picture given Sunday evenings at the Baptist church. This is called the "children's church," and includes besides the picture, a sermon, prayer, and singing. The pictures yesterday were a travel picture of life in India, and an episode from the life of Lincoln, called "My Father." This latter was especially appropriate owing to the nearness of Lincoln's birthday. The program was repeated for the regular evening church service, except that a talk was given by Miss Naomi Plotcher on problems of Americanization.

HUNDREDS HEAR VESPER SERVICE. That Janesville appreciates high class music was shown by the large audience which attended the vesper service yesterday afternoon at the Presbyterian church. The choir under the direction of Mrs. Elmer Arthur, gave a pleasant interpretation to the selections, all of a religious nature, and the cello of Elmer Arthur added much to the effect of the voice notes. The violin solo given by Mrs. Arthur was beautiful and the solo by Dr. T. A. Goodgrass, "It is Enough," by Mendelssohn was well given. The program follows:

WALWORTH BOYS TO MEET FEB. 26-27. Walworth county boys will attend the Y. M. C. A. conference to be held in Elmhurst on February 26 and 27. Fred E. Freeman, New York, will speak.

CONGRESS LOBBIES ARE PERSISTENT

"Legislative Committees" Work Night and Day to Rescue Pet Measures.

By DAVID LAWRENCE. Washington, Feb. 21.—Lobbies—or to phrase it more discreetly "legislative committees"—are working night and day in an effort to rescue measures out of the legislative machine which has clogged the machinery of congress in the closing fortnight of its session. Some members of congress who have been wond'ring for weeks what possible excuse they could make for failing to pass the many proposals pressed upon their attention by national organizations are secretly glad that everything is in a tangle—it is such a convenient alibi.

But if congress imagined the powerful lobbies which have been concentrated in Washington for the several weeks mean to cease their efforts with the ending of the present session, no greater miscalculation could be made.

Farmers Call Meeting. The farmers have started things off with a call for a mass meeting in April, which is intended to show congress the strength of the agricultural club which has been held over their heads heretofore.

And the farmers defend their action by pointing to the other lobbies. "Every interest seeking to control the food, the clothing, the transportation systems and the distribution of the nation's commodities is ably represented and well entrenched here," said Charles S. Barrett, president of the National Farmers' Union.

In issuing a call for a farmers' mass meeting with representatives from every community that can possibly send them to Washington soon after the inauguration.

Packers' Lobby Powerful. Mr. Barrett's description of the various lobbies is interesting because he says he has run counter to them in his own desire to advance the cause of agriculture.

"The packers," he says, "have a lobby which Senator Kenyon, joint author of the bill to regulate the meat packing industry in the nation, has said seems to be more powerful than congress itself. This organization, well financed, with national and international connections reaching to the farthest corners of the civilized world, has demonstrated its ability so far to prevent effective control of its practices."

The coal operators, through wholesale, retail and other agencies have a lobby which for amiable power and far-reaching effectiveness is second only to the institute of American packers and the big five. This lobby has demonstrated its ability so

far to prevent legislation which intelligently enacted and vigorously enforced, might save the people hundreds of millions of dollars yearly. Notwithstanding the fact that a large majority of congress favors regulatory legislation in relation to the two great industries mentioned it has so far been impossible to obtain action by the law-making power of the nation.

G. C. on Watch. The Chamber of Commerce of the United States is here to protect the interests of its membership and to see that commerce, domestic and foreign, is not allowed to suffer through the adoption of laws that they may consider inimical to themselves.

The Association of Railway Executives is here to impress upon congress the wisdom, as they see it, of cutting for the railways, protecting them against what they regard as the evil effects of diminishing revenues while insuring an increased rate and passenger rates.

The shipbuilders of the country are here to see that navigation laws are enacted which they say is ruinous against what they are not without competition by foreign bottoms.

Lumber Men Here. The lumber men from the north, south, east and west are here to see that no legislation discriminating against them is enacted.

"The fertilizer trust and all, and every interest which might profit by governmental action or inaction are here to see that they are not disturbed in their profit-making careers."

Mr. Barrett omitted the powerful lobby which too descends intermittently upon the halls of congress with pleas for action or inaction as the case may be. And there are many other "legislative committees" as for instance the various women's organizations and educational bodies which are pushing welfare organization. Opposed to them are the many other institutional social or religious which are trying to prevent such welfare legislation from getting through.

More Lobbyist in View. If the short session which is ending on March 4 is any index of the new method of clubbing congress to pass or neglect legislative proposals, the house and senate to be called by Warren Harding in April will be surrounded on every side by a total of more lobbies than ever were gathered here in all the sessions of 20 years.

SPORTSMEN TO MEET. Members of the Deloit Rod and Gun club will hold a banquet meeting in the Hotel Milton, Thursday, February 24. A number of Janesville sportsmen plan to attend. A general rally of men interested in sports in and around Deloit is being planned.

Paul Claire—Sleeping sickness claimed its first victim when Mrs. H. H. Bichholz, 55 years old, died at a local hospital after an illness of 37 days, the last twelve of which she spent in a deep sleep.

WEEK REMAINS FOR TAX COLLECTIONS

\$393,000, Less Than Half of Total Levy, Taken in to Date.

Just one week remains for payment of state, county and city taxes here to City Treasurer W. J. Lennartz, the council having extended the time to March 1. This means that all taxes not paid by the close of business February 28, next Monday, will be subject to penalty unless the legislature passes a bill to extend tax payment time to June 1 and the council here votes favorably on it. Less than half of the total tax levy here has been taken in in the two months that collections have been in progress, according to figures secured Saturday from Mr. Lennartz. Of the total amount of \$542,363 to be collected, but \$232,500 has been paid in to the city coffers. Friday was a big day, approximately \$29,000 being received. The amounts collected to date:

Real estate, \$342,554.53; income tax, \$39,747.71, and sur-tax, \$10,297.51. The city treasurer's office is sending out cards to many of the delinquents of personal property and income taxes. Many who own no property are unfamiliar with the law that requires them to pay taxes each year on their incomes, both federal and state levies. The state taxes on incomes of 1919 are payable now at Mr. Lennartz's office. Many of the newcomers to the city have been waiting to receive statements before paying their taxes. Mr. Lennartz advises them to wait no longer as statements will not be forthcoming this year. Next year it is hoped to get a new system in, whereby taxpayers will receive itemized bills of their debts to the city, county and state.

COUNCIL TO TALK
ON POLICE WOMANPetition, Signed by 400, to be
Presented at Meeting
Tonight.

By MRS. ABBIE HELMS.

A gallery of determined women will back up the question of having a police woman in Janesville at the meeting of the city council this evening, according to plans made by the petitioners on Saturday. A petition quietly circulated about the city during the past week, has received such universal endorsement, that the women feel the time has come to present the matter to the council.

The petition, addressed to the mayor, the council and the fire and police commission, asks that a police woman be appointed with full powers of arrest, and full pay. It has been signed by more than 400, including all the ministers, the municipal judge, the superintendent of schools, many representative men of the community and women from many clubs, societies and church groups.

It will be presented under the auspices of the City Federation of Women and the Parent Teachers' organization and representatives of both these bodies will for the committee.

tee which will present the petition tonight.
 "There is a great misapprehension on the part of many people," said a member of the committee today, "in regard to the duties of a police woman. Her chief efforts would be directed toward preventive work for girls, keeping them off the streets at night, visiting the public dance halls, theaters and parks, and trying to see that conditions in these places are as moral as possible. In criminal cases affecting girls and women, she should accompany them into court, and as far as possible find out the conditions governing the motives of crime. In cases of delinquent children she could oftentimes be used by the municipal judge as a probation officer, none being available at present, and she could do useful work in securing information concerning families, applying for mothers' pensions under the state law."

Watch Railroad Defects.

"One field for her activity would be visits to the stations on the arrival of evening trains and giving assistance to girls and women as to recent lodging houses. Another branch of her work would be to assist the transit officer in rounding up children who habitually stay away from school. All these duties can be performed by a woman much better than by a man, and while they may seem arduous, yet the committee is confident that the right woman can be secured for the place, and will be able to perform valuable work in the community."

Edgerton

Frank Russell, Correspondent.

Edgerton—Friday evening a delegation of officials of the Elwood Tractor Co. of Madison, met a small number of business men of this city at the Chamber of Commerce and presented the idea of establishing a factory here for the manufacturing of their product. A subscription for \$25,000 was about the only requirement made to secure the factory for this city. The company is formed by men of business qualifications and with plenty of capital. The corporation's president is W. S. Hedges, formerly of this city and who still holds extensive business interests here. It is probable another meeting will soon be held and the matter presented to a greater number than was present at the Friday meeting.

GAVE CANDY TO CHILDREN, 90 DAYS

Charged with assaulting Vesta Peterson, age 10, Samuel St. John, age 55, was brought to the county jail to serve a 90 day term. He is alleged to have sought to entice the Peterson girl and other minor children to his home with offers of candy and money. He is married and his wife is expected back today from Chicago where she has been visiting.

Peterson was identified by several children of the neighborhood as having pestered several small girls. He was given the 90 day term in default of a fine in the Deloit municipal court Saturday.

FARM BUREAU TO VOTE ON SALARIES

For electing three directors and fixing the salaries to be paid to the officers, the Rock County Farm Bureau will hold an executive board meeting in the court house Friday morning and the township chairmen will meet in the afternoon at 2 o'clock.

The executive board meeting will be for the transaction of routine business, and will meet at 10 o'clock. Both meetings will be held in the court house.

TIRE FLIES OFF

A pole on a farmer's milk wagon on North Jackson street was broken this morning by a stray tire which flew off the front wheel of a truck owned by the Fifield Lumber company.

Tippett Talks at M. E. Church

A large audience of his old friends and co-workers greeted Rev. J. H. Tippett, Appleton, yesterday morning at the Cargill Methodist church, on his reappearance in the pulpit of the church, of which he was pastor 12 years ago. It was during his ministry of eight years that the former churches were united, and the present edifice built.

At the evening service the young women conducted the program on the subject: "How Can I Best Serve My Church?" Miss Elva Townsend, Mrs. Lyle Deard, Mrs. George Holbrook, and Miss Hazel Ketchpaw spoke.

Mrs. F. F. Lewis emphasized the idea that the best efforts of the young people should be expended in promoting its religious life. "Good times are all right," and social activities, help along the friendliness of the church," she said, "but she who gives the most spiritually gets the most from the church."

The men's chorus, directed by Miss Florence Snyder, sang several numbers.

SETTLES MORTGAGES.

Three mortgages were satisfied in hearings held before Judge George Grimm in the circuit court here this morning. Two of the mortgages were given for the support of parents. One of the mortgages settled had been outlawed.

Give

and

Let

Live

Another cry is heard, and the alarm sounded!

Orphaned babies and helpless aged, the sick, suffering and the poor, the friendless, the homeless, the blind, the wayward and the wanderer—crave and clamor for greatly more than is possible now to give them.

We have not kept up with their needs and numbers. We must now catch up.

More room is needed, for their increased numbers beg more room. More roofs are needed, for there are more to shelter in comfort. More food is needed, for there are more hungry bodies to feed. More clothing is needed, for there are more of them to clothe. More medical aid is asked for—there are more to aid, and they need more aid—more of everything than past efforts have been financially able to provide.

They suffered silently in their wants and in their services to God on pittance. Not because WE were totally lax in providing, but because with their God-given grace and strength they stayed satisfied. But now nearly in anguish of absolute financial and physical necessity, they awaken all Wisconsin to give money so that the greater things they need, and which only money can provide, will be obtained.

And one vast fund gathered in one huge effort shall pave and pay the way for all time, let us hope—assuredly for a long, long time to come.

So respond generously to this Catholic Appeal To The Human Heart—for the Gospel says: "Whatsoever you shall do unto the least of these, my brethren, you shall do unto ME."

Police Woman Plan Backed by Local Parents

Enthusiastic endorsement of the idea of having a police woman for Janesville and pledges of assistance in the movement were features of the Parent-Teachers' meeting Saturday afternoon at the high school.

It was the first get-together for all the organizations of the city. There was a general introduction of leaders and discussion of plans.

Miss Martha Riley, state board of health, talked on the opportunities open to these organizations to be of help to the community, and especially enlarged on the duties of a police woman.

An address was given by Prof. E. E. Gordon, of the University of Wisconsin, on the topic, "Community Recreation." This, he declared, is something fathers can do in helping along the work of the Parent-Teachers' organizations. He felt that these should be the nucleus of community centers, in the form of neighborhood clubs.

The means of dancing, movies and automobile riding, which seem an obsession at the present time, he thinks should be offset by group training in singing, dramatics, and in expressing individual characteristics by means of pageants and festivals.

The ideal school, he contended, should last the year round, but during the summer time it should take on outdoor activities, nature studies, and shorter hours.

He advised play groups and story hours, under volunteer workers, as recreation for summer time activities to be fostered by the Parent-Teacher organizations, and also good clean movie pictures, in the school houses and churches, as a splendid thing in keeping the children under proper supervision.

"One of the big problems of America today," he said, "is to provide wholesome recreation for its leisure hours."

Blues Beat Beloit Second Time--All-Stars Trim Madison

LOCAL HIGH LETS LOOSE HOT BARRAGE TO WIN 26 TO 11

For the second time in two weeks Jansville took the stuffing out of a Beloit basketball team when the local high school gave an exhibition of the pastime Saturday in the school gym here at the expense of the Gateway city, 26 to 11. For the early moments of the contest, Beloit showed better playing than the Blues, but the second quarter and played rings around the visitors from that time forward. The game was replete with exciting moments.

Beloit tried to play their "sleeper" game of posting a man under the basket and working the ball down the floor to him. Jansville countered on to the Beloit after the Beloit boys had slipped in a couple of baskets, and from that time on the offense of the visitors was turned to stalling defense.

Beloit has Lead. Slow in getting their dribble and signals working, with the result that Beloit lead 5 to 4 at the end of the first quarter, the Jansville players switched in the second quarter to absolute confidence in their ability, broke the five-man defense of Beloit and set up a barrage of five baskets which the Gateway thereafter only salvaged three times thereafter.

Belmont experienced a session of hard luck in some of her basket shots, but most of the time was kept down to loop tries. The Beloit players, from the south, executed four persons just as the final whistle blew. Chastity, captain of Beloit's 1921 football team, starred for the visitors.

More than 600 people saw the game, the crowd being so large that the city was called upon to station special firemen in the building to prepare for possible emergency. Among the spectators were many of the old-time high school men.

Cong. Top; Church Basketball League

The Congregationalists took first place in the church basketball league when they defeated the Trinity team Saturday night, 4-2 in the closest and hardest fought game in the league this year. The teams fought for three quarters without a score until Jolles sunk a basket for Trinity. The Congregationalists tied the score when Grubb shot a neat basket from near the foul line. An extra period was played, Hummel scoring the winning basket.

The First Lutheran team defeated the United Brethren team 11-12 in the first game of three played at the Y gym Saturday night. The score at the end of the first half was 9-2.

Tanks Lose to Beloit Infantry

Beloit took one fall out of a Jansville team Saturday when the F. B. Bates team of the Gateway city, representing the 21st Separate company, defeated Company I, tank corps, this city, 21 to 13. The basket work of Beloit was the star event of the night, that forward getting six field goals.

Jansville opened with a four man defense and when that failed rushed into a five man guard. It worked better and held Beloit to four points in the final quarter, but the tanks were not on the edge enough to take the lead.

Tuesday, the tanks will play Delavan at the armory here. There will be a preliminary also.

Girls' Basketball Tournament To Open at High Gym Tonight

To decide the championship girls basketball team of Jansville, a tournament between four of the churches will open tonight. A second series of games will be played Wednesday night, and the deciding matches next Monday.

Tonight's games will be staged at the high school gymnasium with the public permitted to witness the battles, starting at 7:45 o'clock. The schedule worked out is:

Tonight
Baptists vs. Congregationalists.
First Lutheran vs. Methodists.
Wednesday
Congregationalists vs. First Lutheran.
Methodists vs. Baptists.

Next Monday
First Lutheran vs. Baptists.
Congregationalists vs. Methodists.
The girls composing the various teams have been selected through a process of elimination under the coaching of Mrs. A. C. Preston. They have been holding practice games at the high school for the past two months. The teams will hold a tournament as a prize in 15 minute halves.

Mrs. Preston will umpire and Miss Pauline Callen, physical instructor of the high school, will referee. The games are held under the auspices of the Older Girls' conference.

Members of the teams are:
Congregationalists—Ruth Moody (C), Louise McNaught, Imogene Hill and Edna Allen, forwards; Evelyn Oestreich and Irene Lewis, jumping centers; Dorothy Bolton and Geneva Fletcher, Ruth Fisher and Madge Chasfield, guards.

First Lutheran—Ellen Daly, Amanda Vidahl and Alma Johnson, forwards; Genevieve Jensen, jumping center; Bertha Vidahl, running center; Verla Helmer, Segre Daley and Clara Gosteland (C), guards.

Baptists—Mildred Look, May Olson and Gertrude Smith, forwards; Gladys Tucker (C), jumping center; Mildred Smith, running center; Helen O'Brien, Mildred Smith and Helen Keadley, guards.

Methodists—Helen Yates and Elsie Ward (C), forwards; Belva Olson and Bernice Getchell, jumping centers; Glenys Townsend, Helen Lewis, Miriam Roon and Grace Nott, guards.

Badgers Fail Before Illinois; Other Results

Champaign, Ill., Feb. 21.—Illinois maintained its rank at the top of the conference percentage column when they defeated Wisconsin, 17 to 9, in the game featured by close and masterful guarding by both sides.

In the second half the Illinois penetrated the Badger defense, took the lead and were never headed. Line-up follows:

Indiana Beats Purple.
The Indiana University basketball team won a closely contested game from the Northwestern University five last night in Patten Gymnasium, Evanston, by the score of 22 to 21. Ray Adler coaches Northwestern, George Leach coaches Indiana.

Ohio's tail-end position in the conference race was no help to the Buckeyes Saturday night. Bartlett gymnasium, when the final gun sounded in the contest the Buckeyes had won, 31-30. It was the wildest and most exciting game of the year.

Iowa Snags Comeback.

Blues Need Win Over Evansville

If Jansville can beat Evansville at the Milton Tuesday night, it is assured of going to the Whitewater tournament, it was announced today. The Blues are ready for a warm battle after their victory Saturday over Beloit.

With the game starting at 8 o'clock, it will be possible for fans to take the early evening train and come back by train the same night. A bus holding about 40 will leave the high school for the game.

A second victory by Jansville over Beloit, while Evansville went down before the Gateway city, gives the Blues a slight advantage. However, the Cut-off city boys were not so strong when they lost to Beloit.

Kansas City—Harry Snyder, Kansas City, won the International wing shot championship.

LOCALS FIRST TO BEAT CARDINALS ON ENEMY FLOOR

Bucking against a team that had won 16 straight games, and with a "creep" of never having lost a game on a visitor's floor for two years, the local All-Stars proved the downfall of the Madison Cardinals here Saturday night, winning 24 to 10. The battle was one of the fastest ever witnessed on the floor of the local "X".

Madison never had the lead but was always within striking distance. The scoring combination of Dick Hager and Paulman kept the edge, plus lucky shots by each team.

Not until the last five minutes was the game won, when a spurt by Paulman and Beloit put the game on ice. In the final seconds, with the score 17 to 16 in favor of the All-Stars, Paulman dumped in a long one.

Albrecht, of Madison, scored a free throw on Gracessin's foul, breaking the threatened tie with a pretty shot, with Hager ending the game with a free throw.

KIRCH AND LUSTIG LEAVE TO ATTEND ENGINEERS' MEET

City Engineer C. V. Kirch and his assistant, Joseph Lustig, Jr., went to Madison today to attend the thirtieth annual convention of the Engineering Society of Wisconsin. They will return tomorrow night.

Mr. Kirch is a charter member of the association, served one term as president and several as trustee and member of the nominating committee. He was instrumental in organizing the society in 1908.

W. A. Pierce, Delavan's city engineer, is one of the speakers for this convention, leading in the discussion of "Water Supply and Stream Pollution." Beloit sent several to attend.

The housing crisis, the Great Lakes to the Atlantic waterway proposal, drainable problems, properties and efficiencies of heat insulation and the reports of committees on licensing engineers will also be discussed.

PEOPLE RESPONSIBLE FOR GOVERNMENT

That the responsibility for a good city government lies strictly with the people was the point which Roger Cunningham, city attorney, stressed in speaking yesterday afternoon at the men's meeting at the Y. M. C. A. on "The Spirit of Christianity in City Government."

Rev. J. A. Melrose also spoke. The music was furnished by the Y. M. C. A. quartet.

INSPECT LAND FOR COUNTY MODEL FARM

Lands for the establishment of the soil demonstration tract are being secured today in Rock county by County Agent R. T. Glasco and G. H. Richards, agricultural department. It is expected the experimental tract will be placed at the Rock county farm.

Three acres will be divided up into small plots this spring and general farm crops planted. Through a method of comparison, farmers will be shown the value of putting lime, stone and phosphates on their soils. One piece will be left without lime and one treated and the same seeds used in the plot. The results will be noted.

Investigation was made today of a quarry near Edgerton to determine if the limestone rock could be used for soil improvement work in the northern part of the county. The rocks will be tested by Mr. Richards and the county agent. A crusher is to be placed at the quarry if the material meets the requirements.

They're going to be married. It's tomorrow. They'd have been married right away at the first, only they had to wait—something about licenses and a five-day notice. Mother said, "Father fussed and fumed, and wanted to try for a special dispensation, or something; but he and that she positively had to have a few things; and he didn't think he could wait, and right in the middle of a body and expect to get married at a moment's notice. But she didn't mean it. I know she didn't; for when Father reproached her she laughed softly, and called him an old goose, and said, 'Yes, of course, she'd have married him in two minutes if it hadn't been for the five-day notice, no matter whether she ever had a new dress or not.'

And that's the way it was with them all the time. They're too funny and lovely together for anything. (Aunt Mattie says they're too silly for anything; but nobody minds Aunt Mattie, and she's just a body and expect to get married at a moment's notice. But she didn't mean it. I know she didn't; for when Father reproached her she laughed softly, and called him an old goose, and said, 'Yes, of course, she'd have married him in two minutes if it hadn't been for the five-day notice, no matter whether she ever had a new dress or not.'

And, as I said before it is all perfectly lovely and wonderful. So it's all settled and they're going right away on this trip and call it a wedding trip. And, of course, Grandfather had to get off his joke about how he thought it was a pretty dangerous business; and to see that this honeymoon didn't go into an eclipse while they were on it. And the other one, but nobody minds Grandfather.

I'm to stay here and finish school. Then in the spring, when Father and Mother come back, we are to go to Andersonville to live in the old house.

And isn't it lovely? It just seems too good to be true. Why, I don't care a bit now whether I go or not. But, then, why else did she do it? In fact both of them call me the whole name now Mary Marie. I don't think they ever said they

BETTER THAN CALOMEL

Thousands Have Discovered

Dr. Edwards' Olive Tablets

are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best to use calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dizziness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." They "clean" the system and "perk up" the spirits. 25c and 50c

Results of city's crime offset by Resinol

Before retiring tonight give your face a treatment with Resinol Soap. Rub the lather well into the pores, then rinse carefully and apply Resinol Ointment to any blotches or irritations there may be. See how the gray and grimy look has disappeared. A few days of such care and you will doubtless be surprised to note how much clearer and fresher your skin looks. You can get the Resinol products from your druggist.

DON'T FUSS WITH MUSTARD PLASTERS!

Musterole Works Without the Blister—Easier, Quicker

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole. It is made of pure oil of mustard and other helpful ingredients, combined in the form of the present white ointment. It takes the place of mustard plasters, and will not blister. Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion and aches of the back, lumbago, pains and aches of the arm, joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia), and 65c and \$1.00; Hospital size \$3.00.

Dinner Stories

An epitaph reads as follows:

"This reads as follows: the memory of William Henry Skamken, who

was shot by Colt's revolver—one of the old kind, brass mounted, and of such is the kingdom of heaven."

Now that Mr. Wells has called Napoleon a conceited clown, using the words of Caesar and Cicerone, and that Mr. Hugo here and there in the process—he may turn to various pages of "Les Misérables" and read what Hugo said about the Duke of Wellington.

A Scotsman came south to have a look at London. He spent a few days in London, and sped back to Scotland again.

On the first night of his return to his little village up in the wilds his friends gathered around him to hear his opinion of the town whose streets were "paved with gold."

He told the tale as only a Scot can—short and candid, without too much padding; then a friend interrupted him:

"Ho long wur ye in Lunnun a' the gither, Jock?"

"Amoot a week," replied the traveled man.

"What did ye think o' the town?"

"Hoos mair, it wur all right int's way! Lunnun's a fine town t'wa' it, but it is such a long wa' fra anywhere!"

"Pa, what's an actor?"

"An actor, my boy, is a person who can walk to the side of a stage, peer into the wings at a group of other actors waiting for their cues, a number of bored stage hands and a lot of theatrical odds and ends and exclaim, 'What a lovely view there is from this window!'"

WHY NOT MAKE YOUR OWN CLOTHES CHEST?

From the dry goods or fabric store get a good strong box about 40 inches long, 18 or 20 inches wide, and from 12 to 18 inches deep. Fasten all the loose boards tightly to the frame of the box.

It may be necessary to get some 2-inch boards from another box to make the lid of the wardrobe chest. These may be fastened together on the under side with two or three strong cleats, making the lid solid and causing it to fit tightly on top of the box. The top must be strong, for some one is very likely to sit on it, and you would want no accidents to occur. Nail the lid to the box, fasten on the hinges, pull out the nails and the chest, in its rough form, is before you.

Turn the whole thing upside down and put a ball-bearing castor at each corner. The castors that fasten on with small screws are to be recommended for this.

Now turn, go over the box thoroughly with sand-paper and smooth over all the rough places. The box can be attractively covered inside and out with cloth stretched tightly and fastened with small brass tacks. Most any good strong fabric of a color that will not readily show the wear is good for the covering. It is well to put a layer of cotton padding under the cloth that goes over the lid.

In choosing the cloth to cover the box, it is advisable to pick something that has a pattern, for the color scheme of the room in which the wardrobe chest is to be placed.

Something Unusual

Instead of the usual form of recitation the history classes of West High School, Minneapolis, Minn., have adopted a plan whereby every one is sure of getting a chance to tell what he knows. A chairman is elected each week to preside at recitations and he, in turn, chooses one pupil each day to lead the class.

QUESTION FOR DEBATE

Resolved: That editors of high school papers should be given credit in the English departments for work on their publications.

Young Bobby Brooks

Young Bobby Brooks, he loved his books And always knew his lesson; He never shook at teacher's look, Because he wasn't guessing.

He always did what he was bid, And answered every question; Attached with zest the toughest test, And followed each suggestion.

And when each boy with grief or joy Received his monthly grade, The highest pass in all the class Was that which Bobby made.

The moral, then, is plain to men, And does not need a preach-er; Seek not to shrink your daily work, And try to please your teacher!—Owen Lee Miller in The Spectator, Louisville (Ky.) Male High School.

OLD LADY RIDDLE

Why is a low, sitting on a gate like a one cent piece? "Which is the heavier, the full moon, or the new moon?" "The new moon, because the full moon is always lighter."

OLD MAN PUZZLE

My first is in chair, but not in stool; My second is in left by not in right; My third is in reign, but not in rule; My fourth is in run, but not in fight; My fifth is in year, but not in tale; My sixth is in look, but not in see; My seventh is in post, but not in me; My eighth is in spot, but not in use; My ninth is in high, but not in low; My tenth is in fat, but not in thin; My eleventh is in line, but not in row; My twelfth is in gold, but not in tin; My thirteenth in link, but not in chain.

My fourteenth in soldier, but not in fighter; My last is in snow, but not in rain; My whole is a famous American writer.

INDOOR MAGIC

The performer seats himself in a chair, the back of which has bars running either horizontally or vertically.

He places his hands in back of the chair. They are tied together at the wrists with a stout cord. A ring is borrowed from one of the audience and placed between the performer's lips. Then a screen is stood before him, so that he is out of sight of the watchers.

An assistant asks the owner of the ring to name which of the performer's fingers she wishes the ring to appear upon. The assistant repeats the name of the finger for the performer's benefit.

Two or three minutes elapse. The screen is removed. The ring is found upon the finger named, and the performer's hands have not been untied, nor has the rope been tampered with.

When the screen is placed in front of the performer he leans forward as far as possible and drops the ring from his lips, to his lap. Then, stretching his knees slowly apart, he carefully allows the ring to drop to the seat of the chair. By a series of backward pushes of the body he slides the ring to the rear of his hands, he can reach it with his fingers. It is then a simple matter to slide the ring onto the finger named.

HEEDS ADVICE; FARMER GLAD!

"I recently read of the hundreds of men and women living right here in Wisconsin, who not relief from their troubles by taking Kozak," said Nick Groehk, Route 1, Custer Wis., near Stevens Point. "I had suffered terribly from heartburn, and gas on the stomach. In fact, my stomach became sore and often felt bloated and miserable. I decided to try Kozak. Soon I noticed a change. Instead of forming gas my food digested properly. The heartburn and soreness stopped and today all my troubles are ended. Kozak has no equal, in my opinion."

Another Chiropractic Achievement

Our Nation Held Spellbound by the Natural Success of Chiropractic

**MIRIAM RUBIN**

This is Miriam Rubin, aged eight years, of Waukegan, who fell victim to the strange talking malady on February 5th. Specialists from all parts of the country were interested in the case.

Medical science was baffled in its attempt to solve the strange disease. Newspapers carried hourly reports on her condition. Press dispatches were printed in practically every news publication in the country.

All sorts of cures ranging from a boat trip to a musical concert, were recommended in letters sent to her parents. Several Chicago musicians offered their services free.

Still Miriam chattered on for 212 hours until a meek Chiropractic Physician in her own city ventured his services and asserted he thought he could help her. Her recovery was almost instantaneous.

The Case of Miriam Rubin of Waukegan, Illinois, Which Baffled the Medical Scientists

You read about it in the papers. Day after day you saw the dispatches of the pitiful condition of Miriam Rubin of Waukegan, Ill., suffering from a strange talking malady. And, you wondered how long this eight-year-old tot could live, what caused her to talk for more than two hundred and twelve consecutive hours, prohibited solid nourishment for nine days and raised her temperature to a point which implied impending death.

Yes, you pondered over her condition as did all the medical physicians and consulting specialists whose services were tendered to rescue little Miriam. Every form of sedative had been administered without improvement, no more could they do. Then finally Dr. Paul Berger, a Chiropractor of Waukegan pleaded for the opportunity to save the child and gained consent of the parents.

But a few moments and Dr. Berger found the second and fifth vertebrae in the child's spinal column out of position and adjusted them. In a short time the child's temperature had dropped four degrees and she lapsed into the first slumber she had had for a week.

After a few Chiropractic adjustments her temperature returned to normal, her periods of slumber increased, her chattering ended and solid nourishment was administered.

She Has Completely Recovered and Is As Healthy and Happy As You!

(Reprinted from Gazette, Thursday, Feb. 17.)

CHIROPRACTOR ALONE ABLE TO STOP LITTLE GIRL'S TALKING SPELL

Waukegan, Ill., Feb. 17.—Miriam Rubin, the "talking girl," has been growing better each day since Tuesday when Dr. Paul O. Berger, chiropractor of Waukegan, after pleading for a chance at treatment, was able to so manipulate the spinal column and snap the vertebrae into place that the prattling of the child suddenly ceased.

"The second and fifth vertebrae had slipped out of place," said Dr. Berger, "and these control the organs of speech." He stated that there would be more trouble as the muscles would pull the bones out of alignment and other treatments would be necessary. Miriam ceased to talk when the vertebrae were properly placed by the chiropractor and went to sleep for the first time in eight days. When the second day came the child began again and Dr. Berger again manipulated the spine and the prattling ceased, and the girl has continued to rest and sleep. Physicians from every part of the country have become interested in the case. Every remedy that could be suggested had been tried when Dr. Berger volunteered his services and was able to succeed where others had failed.

HOWEVER, just as this child's maladjusted vertebrae pinched the nerves which control the organ of speech, caused her wakefulness and high fever, so you too may be suffering from some ailment due to a slight interference with the regular performance of the nerves which radiate from the spinal column.

Diseases which baffle the medical science appear as ordinary under the skillful chiropractor's hands. Ailments which are commonly doctored with drugs or by surgery, are overcome on the chiropractor's table, where neither chemical nor knife are found.

Why then continue to suffer from an ailment which may appear as impossible of cure? See the chiropractor and regain your health!
